

## 1. Innocent

We're going back, I know it's true  
We're going back, I wish you only knew  
How innocent  
This boy is innocent  
He's innocent  
We're going back, I know it's true  
We're going back, I wish you only knew  
How innocent  
This boy is innocent  
He's innocent  
Come on  
Innocent  
This boy is innocent  
He's innocent  
Uh huh, alright  
Innocent  
This boy is innocent  
And now he's going to prove it  
You work so long  
I know it's hard  
You work so long  
You are so innocent  
And now you know, you know me well  
And now you know, I wish you only knew how  
Innocent  
This boy is innocent  
He's innocent  
Uh huh, alright  
Innocent  
This boy is innocent  
And now he's going to  
Innocent  
This boy is innocent  
He's innocent  
Uh huh, alright  
Innocent  
This boy is innocent  
And now he's going to prove it

## 2. Down on the Moon

Down on the moon  
I saw you again  
I saw you smile  
I saw you again  
You were my friend

But I feel near the end  
Down on the moon  
I feel near the end

Calling every guy I knew  
Let's go out drinking  
Down on the moon  
Calling every guy I see  
Let's go rip it up  
It's just about to get me down

Up all night, down on the moon  
You can bet your life I'm down on the moon  
You were my friend  
But I feel near the end  
Up all night  
But I feel near the end

Calling every guy I knew  
Let's go out drinking  
Down on the moon  
Calling every guy I see  
Let's go rip it up  
It's just about to get me down  
Get me down  
Get me down  
Get me down  
Get me down  
Down on the moon  
I saw you again  
I saw you smile  
I saw you again  
You were my friend  
Were my friend, were my friend  
Up all night  
But I feel near the end  
Calling every guy I knew  
Let's go out drinking  
Down on the moon  
Calling every guy I see  
Trapped under the moon  
Just like me  
Calling every guy I knew  
Let's go out drinking  
Down on the moon  
Calling every guy I see  
Let's go rip it up  
It's just about to get me down

### 3. No Violins

Here's a song, it's got everything you want  
Except no violins  
I can see the way you're leaning on the door  
The shape you're in  
You better go now cause you'll never be sad enough  
Cut it out I mean it I don't even want to hear it  
No violence  
Orchestrate a little extra  
Don't do it like you came in  
Next time you might want to call me up  
I'll see you walking down lonely street  
Got the look but it's incomplete  
And I don't want you to start  
Playing with that cause it's nowhere near my heart  
You better go now please  
Please no violins  
Look at me I made it baby listen can't you hear it  
No violins  
I can see the way you're driven on the carpet  
The shape you're in  
You better not come back, better not come back  
Here's the door use it been great wait a minute  
No violence  
Conduct yourself like a human cause I'm not listening  
This is the last sound  
I am going to hear  
I'll see you walking down lonely street  
Got the look but it's incomplete  
And I don't want you to start  
Playing with that cause it's nowhere near my heart  
You better go now please  
Please no violins  
I'll see you walking down lonely street  
Got the look but it's incomplete  
And I don't want you to start  
Playing with that cause it's nowhere near my heart  
You better go now please  
Please no violins  
Here's a song, it's got everything you want  
Except no violins  
I can see the way you're leaning on the door  
The shape you're in  
You better go now cause you'll never be sad enough  
You'll never be sad enough

#### 4. That's What You Get

Too bad about your place  
Well that's how the cellophane curls  
I will walk back tonight  
Kick through the ashes of your guitar  
In a long black coat, broken shoes  
I was right there and you didn't know  
Too bad about your place  
Well that's what you get for being hungry  
I will walk back tonight  
Lit by my beautiful friends  
Too bad you can't lay down  
Well that's what you get for standing up  
I will walk back tonight  
Kick through the ashes of your guitar  
In long black coat that looks like hell  
With a ring I found by the biker bar  
Where the smoke is trying to get away  
I was right there and you didn't know

#### 5. Fun Ride

Get the boss on the telephone  
Man I'm not staying around here  
On this first day of spring  
I saw a carnival truck  
Get some clothes on for a change  
Cause we're leaving in two minutes  
Help me push-start the car  
There's a ride, I know you're gonna love it  
Like a walk down a windy street  
Like the day you get your check  
I know just what you need  
We can go get your little brother  
It's a fun ride  
It's a fun ride  
It's a fun ride  
But I won't guarantee you  
That I won't go back again

Get inside, grab that belt  
Watch your hat so it doesn't get blown away  
I might stand it myself  
Better let me sit next to the door baby okay  
Sometimes I'm sitting in the dark  
Watching you sleep, listening to the freeway  
Look down and tell me you're afraid

I know that you are  
I know that you'll never say that

Pull the plug on that thing  
It won't lift you fifty feet  
Let the dog out in the yard  
Hurry up and go to the bathroom  
They better know I'm not coming in  
Better things to do than fix brakes  
The sun is out but I might bring my coat  
I'm gonna win you a stuffed rabbit  
Like a ride in a fast car  
Like a windy summer night  
I know the best thing  
And it's better than any other  
It's a fun ride  
It's a fun ride  
It's a fun ride  
But I won't guarantee you  
That I won't go back again

Here we go, it's a fun ride  
If it gets too much you just let me know  
Can't you see your back yard tree  
Don't you see what I've been waiting for  
Sometimes you're a little girl kicking your legs out  
Sometimes you've got ten years on me  
I don't have a whole lot for you  
I guess I'm not much to your family  
Best thing's when you turn around  
Look back at the ground  
I don't think you ought to try that  
I can see the water tower  
Rising like the moon over the first national bank  
Sometimes you break my heart  
I just want to hold your hand but you run away  
Look down and tell me you're afraid  
Cause I know that you are  
Like I know that you'll never say  
It's a fun ride  
It's a fun ride  
It's a fun ride

## 6. Gina

Gina's down by the water  
The water's up around Gina  
All last night I was crying

Crying for my baby

Gina spent my money  
I spent my money on Gina  
You can say I'm lonely  
Lonely for my baby

Hey I know that  
Don't you lie to me  
I know that  
Don't you lie to me

Gina's down by the water  
The water's up around Gina  
All last night I was crying  
Crying for my baby

Hey sit down son  
I'll tell you a story about the way things was  
To make you sit up in your sleep  
It's kicks when you're feeling down  
Sit down son  
You want to hear a joke  
Well I got one  
That's just how my Gina sang  
That's just how my Gina sang

## 7. Nature Boy

Waiting for Nature Boy  
After falling out of bed  
Pressed his sentimental leaf  
Looking up hand to mouth  
Let me tell you about Nature Boy  
And the man with the double chin  
Now you be serious  
Or I'll lock you down in the cellar with him  
Pulled a gun on Nature Boy  
Bet the planet don't spin  
Piled up a door, a tree limb, a bag of cans, a bean bag  
On tour with Nature Boy  
Barking like a clown  
Oiled and smiling  
Light brown and ivory  
That day I kind of grew  
Gills and fins  
I said, "The race that's through  
Is the one I'm in"

You looked at Nature Boy  
Passed out in my arms  
I thought everybody knew  
Let me tell you about Nature Boy  
And the man with the double chin  
Lost as a baby to wolves  
Then through effort, frustration  
Here comes Nature Boy  
Would you look at him  
Raised by wolves  
Now he's in the Senate, President!  
Let me show you courage, friend  
Barking like a clown  
When the moon, the clouds, the sea, the animals, even the rocks  
Looking at Nature Boy  
Standing in the setting sun  
Looking at Nature Boy  
Standing like a mannequin  
That day I kind of grew  
Gills and fins  
I said, "The race that's through  
Is the one I'm in"  
You looked at Nature Boy  
Passed out in my arms  
I thought everybody knew  
The sign said "Nature Boy  
Five miles ahead"  
Tall and strong  
Alert to changing needs  
Growing, changing  
Growing fur, wings, a horn, sharp and dangerous gills,  
And a third eye  
Does not sleep as we know it  
Long tongue, never fully concealed hooves  
A scaly tail and back  
And a pouch of mystery, which moves  
This is the story of Nature Boy  
And the man with the double chin

## 8. Bad Girl

Well you sure can wake up early  
In a thousand dollar room  
With a car parked out in Jersey  
Oh man you should have seen me  
You get your best ideas  
When you cut your head wide open  
They made a bad girl, alright

They made a bad girl, alright  
Bad girl  
Bad girl  
Bad girl  
Well you sure can wake up Sunday  
With a thousand dollar headache  
I was looking kinda funny  
But I was not feeling funny  
You get your best ideas  
When you break your neck on the stairs  
They made a bad girl and they made her here  
Bad girl  
Bad girl  
Well you sure can wake up hungry  
In a thousand dollar room  
With a top-drawer headache  
And a car parked in Union City  
You get your best ideas  
When you cut your head wide open  
They made a bad girl, alright  
They made a bad girl, alright  
Bad girl  
Bad girl  
Bad girl  
Bad girl  
Bad girl

## 9. After My Shocks

In a little house  
By the glowing dump  
Called Oak Tracts  
Driving down by the new beach  
Is the only cure  
I had my hostages  
It was pretty great  
After my shocks  
I feel very relaxed  
After my shocks  
I guess now I can get a job  
They made big peace  
After much trouble on the holidays  
Bringing up the kid  
Went so fast, stripped some hair away  
They were very young to deliver one  
In another state  
After my shocks  
I feel very relaxed

After my shocks  
I guess now I can get a job  
Sure it's Japanese  
Walk the plank  
On your knees  
From my little house  
I send you my best wish  
Better you're out there somewhere  
Than in here with me  
I lost some memories  
That's O.K.  
Ignore all evidence  
Roaming like strays  
Dressed like the king of my front room  
In my slippers and shades  
After my shocks  
I feel very relaxed  
After my shocks  
I guess now I can get a job  
After my shocks  
After my shocks

#### 10. Tucumcari

He was out sunning with the youth  
He was seen in a damaging light  
Picking popcorn from his tooth  
Ordering cocktails with his eyes  
She had a face like a dumped-out ashtray  
Spittin' out straight abuse  
Vocabulary of a broken marquee  
And a wit she couldn't use

Get your feet off of my dashboard  
What do you think the damned things for  
At least try to look pretty  
Tonight we're going into Tucumcari

Pulled a wet bill from his shoe  
Wrinkling a dignified face  
By the broken heart-shaped pool  
In a less-than-enchanted state  
She was off at the little girls' room  
With a boy from the Trouble Tree Bar  
Snapping her jeans while the radio sings  
I love you just the way you are

## 11. Down On The Moon #2

Table for two  
Down on the moon  
Under the lonely stars  
He's gonna go  
Back to his car  
Down on the moon  
Walking around  
Down on the moon  
Over the empty park  
He's just about  
To let it get him  
Down on the moon  
She's a singer and a heart mechanic  
But she only knows one song  
She's a singer on the moon  
He's blaming everything suddenly gone wrong  
For two  
Dinner for one  
Called everyone he knew  
Let's hit the town  
Let's rip it up  
I'm down on the moon  
Up in the bar  
Down on the moon  
Over an empty glass  
He's just about  
To let it get him  
Down on the moon  
She's a singer and been up all night  
With her song right between his ears  
She's a singer on the moon  
He's wondering, "How did I get up here?"  
She's a singer and he's not quite listening  
But whispering the words  
Smiling down but he won't be looking  
Up at her  
Table for two please  
Down on the moon  
Under the lonely stars  
Table for two  
Down on the moon  
Under the lonely stars

## 12. Little Red Haired Girl

When I was half myself

I guess I was another guy  
I was gonna find my way to your world  
Little red haired girl  
I was not quite myself  
That was some other time  
You were gonna help me out, I wasn't sure  
Little red haired girl  
Running for the crosstown bus  
Looking like another guy  
I looked everywhere I know and now I'm here  
Little red haired girl  
Standing on a pouring street  
Looking at my angry feet  
I was gonna find my way to your world  
Little red haired girl  
I've been down to the piers  
Run through the park  
Been through hell  
Looking for my little red haired girl  
Been to the corner  
Asking everybody  
Looking all through my pockets  
For my little red haired girl  
Been to the circus  
Down to the projects  
All around town  
Looking for my little red haired girl  
Been through the summer  
Running through the snow  
Lost my coat  
Looking for my little red haired girl
